

## Multiengine Flight Training

Conduct your multiengine flight training in an advanced aircraft with the reputation for safety and performance. Our 2006 Piper Seminole is equipped with the Avidyne Entegra glass panel displays, powered by dual Garmin 430 GPS systems. This aircraft also features weather displays, traffic avoidance, and an auto pilot, which will help you in preparing for a flying career or as an advanced general aviation pilot.

Flightline Group, Inc.'s Multiengine Program can provide you with a Multiengine add-on to a Private or Commercial Certificate, a Multiengine Instructor Certificate, or your ATP Certificate.

**Hourly rate is \$395/hour,  
which includes fuel and  
instruction.**

**POWER • PERFORMANCE • PRICE  
PIPER SEMINOLE**
